

SECOND QUARTER

June 30, 2018

To supplement CMHC's consolidated financial statements, which are prepared in accordance with IFRS, CMHC uses non-IFRS measures to analyze its performance. The following Assisted Housing Business Supplement is prepared for the second quarter ending June 30, 2018, and is intended to help readers better understand CMHC's Assisted Housing activity. CMHC believes that this business supplement provides meaningful information that enables greater transparency and clarity with respect to CMHC's Assisted Housing activity.

BUDGET 2016 INITIATIVES

Budget 2016 Social Infrastructure Initiatives were launched successfully and many of the initiatives reached their sunset date on March 31, 2018. CMHC's Housing Internship for First Nations and Inuit Youth (HIIFNIY) program supports internships for indigenous youth by providing work experience and on-the-job training. CMHC also provides up to \$30 million over three years to help homeowners in Québec dealing with costly structural problems in their homes as a result of the presence of the mineral pyrrhotite in their foundations. Up to \$150 million is provided over four years under the Prepayment Flexibility to allow social housing providers (coops and non-profits) to prepay long-term non-renewable CMHC mortgages without penalty. Budget 2016 provided additional investments to improve housing capacity in First Nation communities and create new shelters for victims of family violence. An investment of \$208.3 million is provided over 5 years under the Innovation Fund which encourages new funding models and innovative building techniques in the rental housing market. All figures are reported on a fiscal basis starting April 1 and ending on March 31 and exclude operating expenditures

NATIONAL HOUSING STRATEGY (NHS)

The implementation of the Budget 2017 National Housing Strategy (NHS) Initiatives is underway which includes a series of initiatives that contributes to reducing core housing need through repairing and maintaining the housing stock, building new affordable housing units and providing housing affordability allowances. The National Housing Co-Investment Fund (NHCF) will provide contributions and low-cost loans focusing on two key priority areas of the National Housing Strategy: new affordable housing supply and the repair and renewal of existing affordable and community housing supply. As of June 30, 2018 the first window of applications under the Co-Investment Fund (NHCF) have been received for both new construction and repairs/renewals and the prioritization of the applications are underway. Under the Federal Community Housing Initiative, new federal funding will be made available over a two-year period which began on April 1, 2018 to assist projects reaching their end of operating agreement (EOA) date. This funding will provide a temporary extension of subsidies in order to preserve affordability for vulnerable tenants. As of June 30, 2018, subsidy extension offers continue to be mailed out to projects reaching their end of operating agreement (EOA) dates. The Technical Resource Centre and Sector Transformation Fund will provide technical assistance, tools and resources to increase capacity of social housing providers and support a more efficient, resilient and effective sector. The Federal Lands for Affordable Housing initiative makes surplus federal lands and buildings available to housing providers for less than market value for the construction and renewal of affordable housing.

National Housing Strategy Initiative	Total Budget	Unit Targets
National Housing Co-Investment Fund	15.9B	At least 60,000 new units At least 240,000 repaired units
